

## Coast Guard Cooperation Handbook and Capacity Building Project

The Project is coordinated by EFCA and implemented in close cooperation with EMSA and Frontex.

Timeframe: 1 February 2022 – 31 January 2027

### ONLINE PLATFORM

<https://coastguard.europa.eu>

It centralises, for the first time, up-to-date information about European coast guard authorities; the relevant cooperation and coordination mechanisms involving the EU and/or its Member States; as well as information about the EU Agencies' Catalogues, offering information on best practices, services and training courses. It also displays main deliverables of the inter-agency cooperation.

Taking action to promote European cooperation among authorities engaged in coast guard functions

### EXCHANGE PROGRAMME

It facilitates the exchange of experiences and best practices between national authorities, including academic institutions, fostering collaboration and knowledge-sharing across the different coast guard functions.

### SECTORAL QUALIFICATIONS FRAMEWORK (SQF)

Raising awareness of the Sectoral Qualifications Framework for coast guard functions and how to align training to the required standards.
